

GSCCC Stakeholder Meeting Summary

August 4, 2010

On August 4, 2010, the Granite State Clean Cities Coalition (GSCCC) held its quarterly stakeholder meeting at NH DES Offices, 29 Hazen Drive, Concord, NH. The quarterly meeting was held a month early to coincide with a visit (and update) from Mike Scarpino, US DOE Clean Cities Project Manager. Twenty-two stakeholders, guests and State employees attended the meeting.

The meeting began with introductions. Mike Scarpino was our guest presenter, providing an update on the US DOE Clean Cities program, including how the program is funded, current pending legislation on alternative fuels and infrastructure, and details on the upcoming Clean Cities funding opportunity. (See “Presentation” on GSCCC website: www.granitestatecleancities.nh.gov/stakeholders/index.htm.)

The presentation included electric vehicles and infrastructure. Much discussion resulted from this portion of the presentation. The group asked questions about the upcoming funding opportunity through the Clean Cities program.

Dolores Rebolledo provided a brief “State of the Coalition” presentation on the Granite State Clean Cities Coalition.

Dolores also updated the group on the progress of the three GSCCC workgroups. The CNG workgroup is scheduled to meet on August 18, 2010 at 8:30 a.m.; the Biodiesel workgroup is scheduled to meet on August 31, 2010 at 1:30 p.m.; and the Electric workgroup is scheduled to meet on September 28, 2010 at 1:30 p.m. All meetings will be held at DES offices.

Meeting adjourned at 11:00 a.m.
